Project Page- Boundary Creek Park, Moorestown NJ

TDG completed design, construction documents, bid specifications, construction oversight and contract administration of the Boundary Creek Natural Resource Area in Moorestown Township for the **Burlington County Dept. of Resource Conservation**. TDG was the lead consultant of a team including engineers, architects and naturalists.

Challenges on the project involved achieving consensus with adjacent property owners regarding use and layout, and with NJDEP for access through wetland and mean-high-water areas to the Creek. The park was opened to the public in 2008.

We are proud to announce that this project received a **2010 Design Award** from the *American Society of Landscape Architects (NJ Chapter)* and a **2011 Design Award** from the *NJ Recreation & Parks Assoc.*

Project Page- Avalon, NJ

TDG created a Streetscape and Downtown Revitalization Master Plan for the seaside resort town of Avalon, NJ, which focused on the promotion of a visual identity for the Dune Drive Business District in order to stimulate economic redevelopment and enhance property values. In addition to designing a streetscape, TDG prepared ordinance amendments to permit more residential use on second floors in the downtown, which has enhanced the vitality of the area. The Plan won an Award for Excellence from NJPO.

TDG also designed Veteran's Plaza, which has become the central civic event space in the Borough, and recently completed design of the September 11th Memorial.

Project Page- Swede Run Fields – Dog Park, Moorestown NJ

TDG completed the design, construction documents, bid specifications, construction oversight and contract administration of Swede Run Fields- Dog Park for Moorestown Township. TDG was the lead consultant of a team that included the Township Engineer.

The site for the dog park was located within an active agricultural field and adjacent to an historic stone barn. The design provided for a new semi-circular parking area utilizing the large existing maple as a center point.

The parking area also serves as a trail head to the gravel farm edge trails that were restored as part of the project. The dog park was separated into areas for small and large dogs with a shared pavilion to provide shade for picnic tables. Other improvements included a drinking fountain, dog agility equipment, an information kiosk, entrance sign and interpretive sign for the historic stone barn. The fencing was also designed to blend with the agricultural surroundings. The \$350,000 project was completed in 2016.

Project Page- Crystal Lake Park, Mansfield NJ

TDG completed design, construction documents, bid specifications, construction oversight and contract administration of Crystal Lake Park in Mansfield Township for the Burlington County Dept. of Resource Conservation. TDG was the lead consultant of a team including civil engineers, architects, MEP Engineers and naturalists.

Challenges on the project involved environmental permitting related to

endangered species, balancing active agricultural uses with public access, buffering adjacent residential property owners, addressing soil erosion that was negatively impacting the lake; and avoiding conflicts between equestrian and other park users. The \$2.6 million improvement project was opened to the public in 2016.

The design of the 370 acre park provided two new park entrances and an entrance drive, with parking lots and horse trailer parking, an accessible horse mounting ramp, a restroom building, septic system, potable well, new electric services, a picnic pavilion, fencing, landscaping, meadow planting, stormwater improvements, site furniture, kiosks, portable toilet enclosure and creation of new farm edge turf trails, woodland trails, plank walkways and five footbridges. The design also incorporated route planning for a proposed regional trail that will pass through the park.

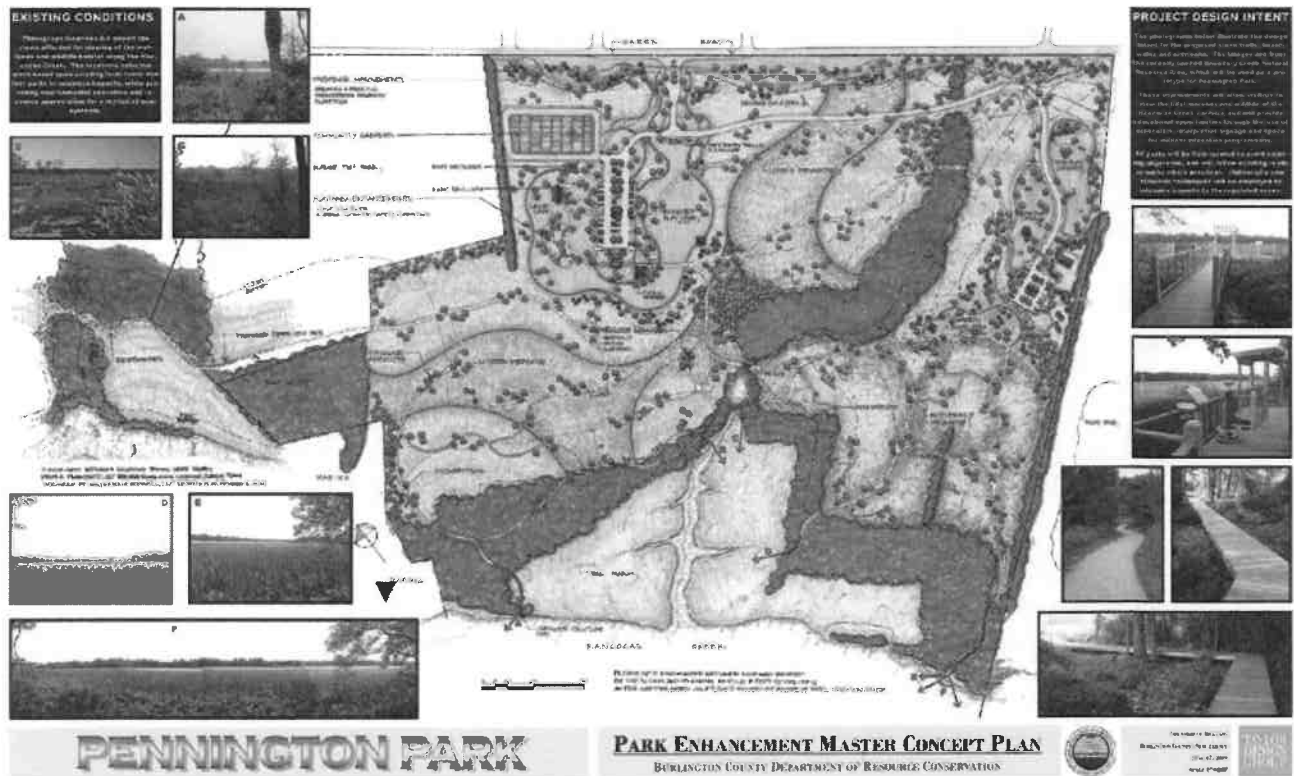

Project Page- Pennington Park Delanco, NJ

Building upon the success of Boundary Creek Park, TDG was retained by the Burlington Co. Dept. of Resource Conservation to create public access to the Rancocas Creek and other improvements in Pennington Park in Delanco Township. TDG's leadership in navigating the permitting requirements for waterfront access resulted in two boardwalk access points to Rancocas Creek and a bridge overlook, which allow unprecedented public access to this wild and wonderful tidal marshland.

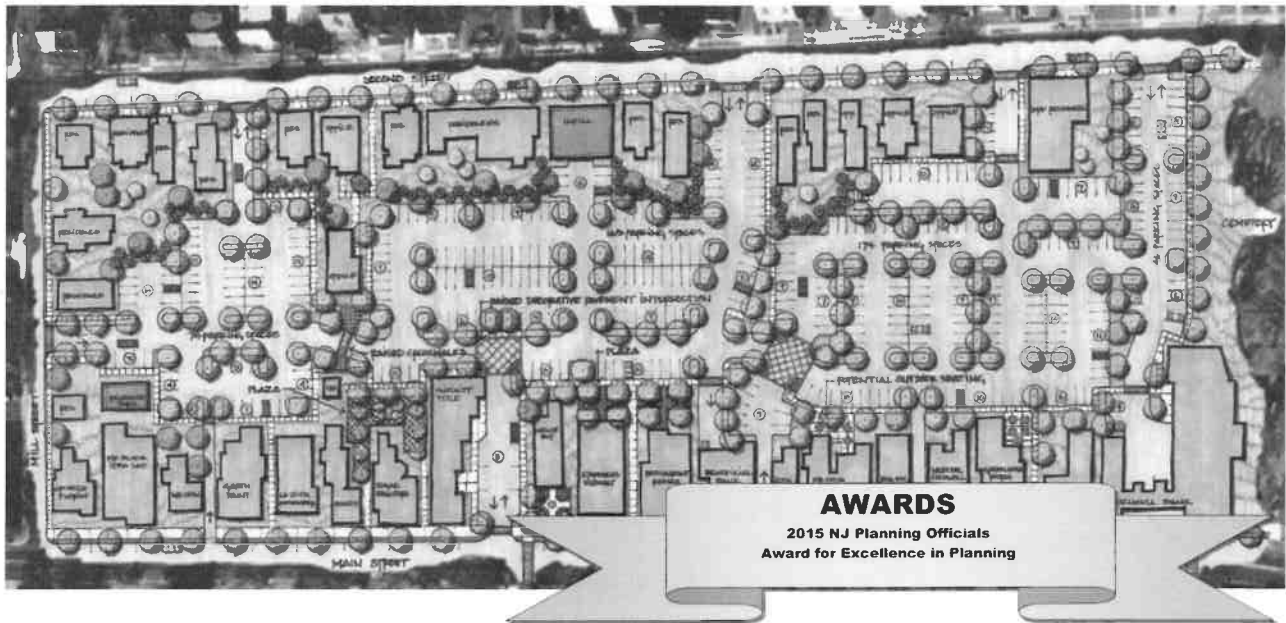

TDG prepared a concept plan, site drawings and bid documents for the \$3.6 Million park facilities expansion and conducted contract administration. The team included Architects, Engineers, and Environmental consultants. Other park improvements include a community garden, a trail connection to the County's Rancocas Creek Greenway, small and large dog parks with agility equipment, enhanced play areas, fitness course, new picnic areas and three new pavilions with enhanced landscapes.

Project Page- Moorestown, NJ

TDG worked with the Moorestown Township Economic Development Advisory Committee (EDAC) to prepare a shared parking plan for a major commercial block in the Main Street downtown. The concept plan yields a potential **increase of over 100 parking spaces** if the functionally disconnected private parking areas are planned as one lot. The concept plan was used to obtain a **\$50,000 TCDI grant** from the DVRPC for preliminary design plans and additional feasibility study. TDG prepared the study which included additional design analysis, a **case study analysis** of how to best implement a shared parking lot over a number of diversely owned properties, zoning ordinance recommendations, numerous environmental sustainability elements and a wayfinding signage plan.

TDG prepared a strategic **Parks Implementation Plan** for the Township, as well as conceptual design and preliminary layout plans and construction plans for site amenities for the **Wesley Bishop Park Turf Field** project.

TDG also developed a field sponsorship and banner program which will raise upwards of \$50,000 per year to help fund the Township's recreation programs and facilities.

Project Page- Burlington County Fairgrounds, Springfield NJ

Over several years, TDG has completed design, construction documents, bid specifications, and construction oversight for various phases of improvements to the Burlington County Fairgrounds for the **Burlington County Dept. of Resource Conservation**. TDG was the lead consultant of teams that included civil engineers, architects, and MEP Engineers.

The Fairgrounds facility is the host site for the Burlington County Farm Fair as well as many other large and smaller events throughout the year. Improvement projects include utility upgrades, site lighting, a new restroom building and septic systems, large picnic/event pavilion, interior and exterior improvements to existing buildings, decorative pavements, signage design, landscaping and turf renovation. Over \$2 million in improvements have been made, with the most recent phase completed in 2017.

Project Page- Burlington County Agricultural Center, Moorestown NJ

TDG completed design, construction documents, bid specifications, construction oversight and contract administration for improvements to the Burlington County Agricultural Center in Moorestown Township for the Burlington County Dept. of Resource Conservation. TDG was the lead consultant of a team including civil engineers, architects, and MEP Engineers.

The facility is home to various uses including community, teaching, and culinary gardens; agricultural demonstration and research plots, a farm market barn that also hosts wedding and other events, and a farmhouse with meeting rooms and a demonstration kitchen; all of which are surrounded by a privately-operated working farm with livestock.

and other events, and a farmhouse with meeting rooms and a demonstration kitchen; all of which are surrounded by a privately-operated working farm with livestock.

The design included a new pathway system to organize public movement between the various uses while maintaining limited access to the farm operations. Improvements included a new community garden with accessible planters, an event lawn, picnic area, wayfinding and entrance signage, demonstration kiosks, site lighting, barn lighting upgrades, fencing, landscaping, painting of the barns and farmhouse, a "chicken coup" kiosk, and a stage area within a corn crib.

Challenges on the project involved scheduling the work to accommodate ongoing events and coordination with farming activities. The \$700,000 improvements were completed in 2017.

Project Page- Kinkora Trail, Mansfield NJ

TDG completed design, permitting, construction documents, bid specifications, and contract administration for the Kinkora Trail in Mansfield Township for the **Burlington County Dept. of Resource Conservation**. TDG was the lead consultant of a team including civil engineers and a naturalist. The 3.2 mile multi-user trail is a portion of a larger trail that will eventually span 13 miles and connect to the larger "Circuit" trail network beyond Burlington County. This segment includes both on and off-road segments that link two existing municipal parks. The off-road portion passes by active ag fields, wetland meadows, open grasslands and shaded woods. Features include a pedestrian bridge, picnic areas, benches, decorative concrete culvert crossings, fencing and interpretive signage and restoration with native seeding.

Challenges on the project involved permitting of environmentally sensitive areas, construction access issues and difficult soil conditions as well as scheduling the work with farming activities. The \$900,000 improvements were completed in 2016.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. The IRS has created a page on www.irs.gov/w9 for information about Form W-9, at www.irs.gov/w9. Information about any future developments affecting Form W-9 (such as legislation enacted after we release it) will be posted on that page.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, payments made to you in settlement of payment card and third party network transactions, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the

withholding tax on foreign partners' share of effectively connected income, and

4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct.

Note. If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien.
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.
