**N.J.S.A. 10:5-31 et seq. (P.L. 1975, C. 127) and N.J.A.C. 17:27
MANDATORY EQUAL EMPLOYMENT OPPORTUNITY LANGUAGE
GOODS, PROFESSIONAL SERVICE AND GENERAL SERVICE CONTRACTS**

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employments because of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Except with respect to affectional or sexual orientation and gender identity or expression, the contract will ensure that equal employment opportunity is afforded to such applicants in recruitment and employment, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Such equal employment opportunity should include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this nondiscrimination clause.

The contractor or subcontractor, where applicable will, in all solicitation or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex.

The contractor or subcontractor, where applicable, will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contract officer advising the labor union or workers' representative of the contractor's commitments under this act and should post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et seq., as amended and supplemented from time to time and the Americans with Disabilities Act.

The contractor or subcontractor agrees to make good faith efforts to afford equal employment opportunities to minority and women workers consistent with Good faith efforts to meet targeted county employment goals established in accordance with N.J.A.C. 17:27-5.2, or Good faith efforts to meet targeted county employment goals determined by the Division pursuant to N.J.A.C. 17:27-5.2.

The contractor or subcontractor agrees to inform in writing its appropriate recruitment agencies including, but not limited to, employment agencies, placement bureaus, colleges, universities, labor unions, that it does not discriminate on the basis of age, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex, and that it will discontinue the use of any recruitment agency which engages in direct or indirect discriminatory practices.

The contractor or subcontractor agrees to revise any of its testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job-related testing, as established by the statutes and court decisions of the State of New Jersey and as established by applicable Federal law and applicable Federal court decisions.

PLEASE EXECUTE THIS FORM AND SUBMIT WITH THE RFP PACKAGE

**N.J.S.A. 10:5-31 ET SEQ. (P.L. 1975, C.127) AND N.J.A.C. 17:27
MANDATORY EQUAL EMPLOYMENT OPPORTUNITY LANGUAGE
GOODS, PROFESSIONAL SERVICE AND GENERAL SERVICE CONTRACTS
(CONTINUED)**

In conforming with the targeted employment goals, the contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and layoff to ensure that all such actions are taken without regard to age, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

The contractor should submit to the public agency, after notification of award but prior to execution of a goods and services contract, one of the following three documents:

Letter of Federal Affirmative Action Plan Approval

Certificate of Employee Information Report

Employee Information Report Form AA-302

The contractor and its subcontractors should furnish such reports or other documents to the Division of Public Contract Equal Employment Opportunity Compliance as may be requested by the office from time to time in order to carry out the purposes of these regulations, and public agencies should furnish such information as may be requested by the Division of Public Contracts Equal Employment Opportunity Compliance for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code at N.J.A.C. 17:27.

**EEO/AFFIRMATIVE ACTION COMPLIANCE NOTICE TO BIDDERS
N.J.S.A. 10:5-31 AND N.J.A.C. 17:27
GOODS, PROFESSIONAL SERVICE AND GENERAL SERVICE CONTRACTS**

All successful bidders are required to submit evidence of appropriate affirmative action compliance to the County Division of Public Contracts Equal Employment Opportunity Compliance. During a review, Division representatives will review the County files to determine whether the affirmative action evidence has been submitted by the vendor/contractor. Specifically, each vendor/contractor should submit to the County, prior to execution of the contract, one of the following documents:

Goods and General Service Vendors

1. Letter of Federal Approval indicating that the vendor is under an existing federally approved or sanctioned affirmative action program. A copy of the approval letter is to be provided by the vendor to the County and the Division. This approval letter is valid for one year from the date of issuance.

Do you have a federally approved or sanctioned EEO/AA program? Yes No
If yes, please submit a photo copy of such approval.

2. A Certificate of Employee Information Report (hereafter "Certificate"), issued in accordance with N.J.A.C. 17:27-1.1 et seq. The vendor must provide a copy of the Certificate to the County as evidence of its compliance with the regulations. The Certificate represents the review and approval of the vendor's Employee Information Report, Form AA-302 by the Division. The period of validity of the Certificate is indicated on its face. Certificates must be renewed prior to their expiration date in order to remain valid.

Do you have a State Certificate of Employee Information Report Approval? Yes No
If yes, please submit a photo copy of such approval.

3. The successful vendor should complete an Initial Employee Report, Form AA-302 and submit it to the Division with \$150.00 fee and forward a copy of the Form to the County. Upon submission and review by the Division, this report should constitute evidence of compliance with the regulations. Prior to execution of the contract, EEO/AA evidence must be submitted.

The successful vendor should complete an initial Employee Report (Form AA-302) on the Division website at www.state.nj.us/treasury/contract compliance.

The successful vendor(s) must submit the AA-302 Report to the Division of Public Contracts Equal Employment Opportunity Compliance, with a copy to Public Agency.

The undersigned vendor certifies that he/she is aware of the commitment to comply with the requirements of N.J.S.A. 10:5-31 and N.J.A.C. 17:27 and agrees to furnish the required forms of evidence.

The undersigned vendor further understands that his/her bid should be rejected as non-responsive if said contractor fails to comply with the requirements of N.J.S.A. 10:5-31 and N.J.A.C. 17:27.

EXECUTIVE SUMMARY

For

Township of Barnegat

Township and Water/Sewer Utility Pool Engineer

Morgan Engineering, LLC/Morgan Municipal Services, LLC is providing a submittal package with resumes and past projects for consideration for *Township of Barnegat-Township and Water/Sewer Utility Pool Engineer*.

We appreciate this opportunity and believe we would be an excellent fit with Township of Barnegat. Morgan Engineering, LLC/Morgan Municipal, LLC is a firm that understands the balance to strive for when dealing with budgetary constraints, deadlines, requirements, etc. to be considered against project goals, local government concerns and environmental factors.

As a full-service engineering and surveying firm, Morgan Engineering, LLC/Morgan Municipal, LLC, employs Engineers, Planners, Landscape Architects, Structural Engineers and Land Surveyors that allow municipal projects to be carried from initial concept to completed construction. Our focus on the communities we serve is what separates us. We certify that all licenses documented with this proposal are presently not suspended or revoked, and further that they are in “good standing” unless otherwise indicated.

We are uniquely qualified to understand the goals of Township of Barnegat as well as developers and to be the liaison between the two to get the project accomplished.

Thank you for your consideration and we look forward to working with you.

COMPANY PROFILE

Our Mission

Improve our communities through exceptional projects and ultimately improve quality of life for the people in which we serve.

Our Promise

Our commitment to providing total engineering solutions has enabled the firm to meet and exceed the expectations of its clients and achieve project objectives in a timely manner and on budget.

Our experts work with builders and municipalities to maintain efficient infrastructure, safeguard the public, spur economic development and promote environmental sustainability.

Our multi-disciplined team of professionals is focused on providing exceptional service.

Our Services

With a team of over 70 years of combined experience in municipal engineering, Morgan's professionals have served municipalities in many dimensions.

Professional Engineering

- Grant & Loan Procurement
- Permitting
- Marinas & Shore Protection
- Roads & Highways
- Traffic

- Construction Administration
- Risk Management
- Project Close Out

TECHNICAL PROCESS AND EQUIPMENT

Morgan Engineering, LLC/Morgan Municipal, LLC is a full-service surveying and engineering firm that has employees, equipment, and the machinery necessary to meet the needs of both private and public clients in New Jersey in the 21st century. For detailed engineering drawings, AutoDesk Civil 3D 2021 is utilized. Personnel are competent in using TerraModel and Microstation. A full complement of Microsoft Office Suite is found on all computers throughout the company. Additional software/programs utilized by the Engineering Division include, but is not limited to, AutoTURN, HydroCAD, Hec-Ras, Visual, and ArcGIS. The Structural Engineering Division utilizes the Digital Canal Structural Suite, Hilti PROFIS, Vespa 2, and ReSSA.

The survey field crews of Morgan Engineering, LLC/Morgan Municipal, LLC utilize the latest equipment on data acquisition including robotic transits, GNSS/RTK positioning, an uncrewed surface vessel for hydrographic surveys, and aerial drone surveying capabilities.

Whether it be surveying, engineering, or structural engineering, Morgan Engineering, LLC/Morgan Municipal, LLC is focused on using state-of-the-art equipment to provide the highest level of service to their clients.

EMPLOYEE PROFILES & LICENSES

Mathew R. Wilder, P.E., P.P., C.F.M., C.M.E.

Mathew is a professionally licensed engineer in New Jersey, New York, and Pennsylvania with twenty years of experience in the field of land development. He is also licensed as a Professional Planner and a Certified Municipal Engineer in NJ and nationally licensed as a Certified Floodplain Manager. He's brought a wealth of experience to the firm since joining in 2016. Before joining Morgan Engineering, Mat gained significant experience as he advanced his career while working at Maser Consulting, PS&S, and KZA Engineering. He possesses expertise in the design and approval process of site development engineering. For a large portion of Mat's career, his primary focus was in the field of commercial development. He also has extensive experience in construction consulting services. Morgan Engineering is one of only a few firms to handle engineering design services on three projects located within Fort Monmouth. These projects require a great deal of coordination between the Borough of Oceanport, FMERA, and Monmouth County.

Mat appreciates the diversity of projects he gets to work on at Morgan - from clients who propose assisted living facilities and residential subdivisions, to homeowners lifting Sandy-damaged homes (for the latter, Mat likes to think that he is the calming voice for homeowners as he walks them through the oftentimes overwhelming process). With a large aspect of Mat's experience being in commercial site development, one of his greatest joys is attending the grand openings of his business clients, as he sees the project come from inception to fruition.

Mathew R. Wilder, P.E.

137 Central Avenue, Island Heights, NJ

Education:

Bachelor of Science; Civil Engineering – May 2006

Rowan University, College of Engineering, Glassboro, New Jersey 08028

Employment History:

June 2006 - January 2012 – KZA Engineering P.A.: Project Design Engineer

January 2012 - January 2015 – Maser Consulting: Senior Engineer

January 2015 - February 2016 – Maser Consulting: Assistant Project Manager

February 2016 - April 2016 – PS&S: Project Engineer

April 2016 - Present – Morgan Engineering & Surveying: Director of Engineering Services

Professional Licenses:

Licensed Professional Engineer - New Jersey, Pennsylvania, & New York (NCEES Records Holder)

Licensed Professional Planner - New Jersey

Certified Floodplain Manager

Certified Municipal Engineer

Experience Summary:

Professional Civil Engineer with well-rounded and developed skills in the design and approval processes of Site Development Engineering. Specific areas of work include, but are not limited to, project/client management, proposal preparation, conceptual site layouts, site investigation reports and due diligence, Preliminary and Final Major Site Plans & Subdivision Plans for municipal, county, and state approval, and development of Stormwater Management Reports. Also experienced in the permitting and approval processes, as well as construction consulting services, which includes the review and approval of shop drawings and coordination with contractors and resident engineers.

Relevant Project Experience:

Manchester Township Planning Board Engineer- 2023 – present

Sayreville Borough Planning Board Engineering- 2025 - present

Currently serving as the Planning Board Engineer for the Township of Manchester. Specific duties include reviewing applications for completeness in accordance with the Township Development Checklists, technical engineering reviews, and providing the Planning Board with guidance and assistance, as necessary.

Manchester Township Master Plan Re-Examination Planner- 2023-present

Part of a multi-discipline team tasked with performing a Master Plan Re-Examination Report for the Township of Manchester to address the goals and objectives necessary to improve the Township for those that live, work, and play within Manchester Township. Task also included a vacant land analysis in response to the fourth (4th) round affordable housing obligation.

Mathew R. Wilder, P.E.

E-mail: mathew@morganengineeringllc.com

Plumsted Township – Township Engineer – 2023, 2024

Manchester Township – Township Engineer – 2023 – present

Performed all duties of the Township Engineer including technical support on capital improvement projects, inspection of public and private development projects, correspond with residents and address complaints related to drainage and other Township facility issues, and coordinate with intra-department staff to address the needs of the citizens.

Capital Projects – Roadway Design

Oversaw all phases of survey, design, and construction for governmental capital projects associated with roadway improvements. Projects included the preparation of base maps based upon ground survey data, supplemented with aerial topography and GIS information. Following the base map preparation, construction plans were prepared which identified portions of the roadways which were to be milled and overlaid as well as those areas where it was determined that there was base failure and full depth reconstruction was needed. Additional improvements included installation curbing with handicapped ramps and additional miscellaneous improvements. Upon completion of the design drawings, specifications, bid forms, notice to bidders, contract forms, etc. were assembled into a comprehensive big package. Recommendations were made following the bid openings. Lastly, construction oversight and inspection occurred throughout construction of the project which involved coordination with the applicable governmental agencies, project contractors and individual homeowners.

Frank Sadeghi, P.E., C.M.E.

Frank founded Morgan Engineering in 1993 (which was named after his daughter) and is the Principal Owner responsible for total project management and design of municipal, residential, commercial, and industrial projects. He has more than thirty years of engineering experience in both the private and public sectors. Frank is currently the Manchester Planning Board Engineer and the Manchester Township Engineer. He also has had numerous other public positions which include Special Project Engineer for Townships and Municipal Utilities Authorities and Conflict Engineer for Townships as well as Planning and Zoning Board positions.

He formerly worked at Maser Sosinski & Associates and at The Schoor, DePalma & Canger Group, Inc. as a Project Manager and oversaw major governmental, residential, commercial, and industrial projects. He started his career at Bernard R. Berson & Associates designing commercial and residential site plans and subdivisions and served as a Project Manager and designer for projects in the State of New Jersey. Frank also gained valuable experience while serving as the Township Engineer for Toms River Township which is one of the largest Townships in the State.

Frank is both a Certified Municipal Engineer and Professional Engineer in the state of New Jersey. He is a member of several professional societies: the American Society of Civil Engineers, the National Society of Professional Engineers, the New Jersey Society of Municipal Engineers, and the New Jersey Society of Professional Engineers.

Manchester Township Planning Board Engineer & Municipal Engineer

Morgan Engineering LLC – Principal/Owner

Professional Licenses

Licensed Professional Engineer, New Jersey

Certified Municipal Engineer

Experience Summary

Principal owner responsible for division management and design of municipal, residential, commercial, and industrial projects. Also served as a Special Project Engineer for various governmental agency projects.

Specific areas of work include, but are not limited to, project/client management, proposal preparation, conceptual site layouts, site investigation reports and due diligence, Preliminary and Final Major Site Plans & Subdivision Plans for municipal, county, and state approval, and development of Stormwater Management Reports. Also experienced in the permitting and approval processes, as well as construction consulting services, which includes the review and approval of shop drawings and coordination with contractors and resident engineers.

Municipal Appointments

Manchester Township Planning Board Engineer

Brick Township Planning Board

Toms River Township Planning Board

Toms River Township Municipal Engineer

Conducted plan reviews in accordance with the applicable municipal requirements and, when appropriate, prepared and issued technical review letters. Additional duties included attendance at, and professional testimony during, Planning Board meetings as well as the various tasks consistent with a Municipal Engineer, including but not limited to, pre-construction meetings, site inspections and invoice review.

Relevant Project Experience

Yellowbrick Estates, Toms River Township, Ocean County, NJ

Project Manager – Engineer of Record

Oversaw the development of Preliminary and Final Major Subdivision Plans for a 10-lot major subdivision in the Township of Toms River. This involved grading and utility design as well as stormwater management facilities to facilitate the construction of ten new residential dwellings. The utility design included extensions of sewer for both water and sewer with a Treatment Works Approval being required for the sewer extension from the NJDEP's Division of Water Quality.

Additional duties included soil erosion and sediment control plans, preparation of a stormwater management report/design, and a cut/fill analysis to ensure the proposed development could be constructed without the need to import or export soil.

Dorathy's Lane, Jackson Township, Ocean County, NJ

Project Manager – Engineer of Record

Oversaw the development of Preliminary and Final Major Subdivision Plans for an 11-lot major subdivision in the Township of Jackson. This subdivision involved a parcel of land with approximately 2,500 linear feet of frontage along two existing roadways. The subdivision utilizes the existing roadway infrastructure to provide access to all 11 lots. As public water and sewer were not available, the development proposed individual potable drinking water wells and subsurface individual sewer service systems.

State Liquors, LLC, Toms River Township, Ocean County, NJ

Project Manager – Engineer of Record

Provided professional engineering services for a shopping center across just under 10 acres of land which included approximately 45,000 SF of building between one anchor building and three pad sites. The property exists along two County roadways and the main access was required to be accessed by a new acceleration/deceleration lane in accordance with County standards. Specific duties included overseeing the preparation of the Preliminary and Final Major Site Plans, grading and utility plan design, soil erosion and sediment control plans, and preparation of a stormwater management report/design which included two at-grade stormwater basins and two subsurface detention basins. Additionally, this development was required to obtain a CAFRA Individual Permit based upon the intensity of development and the number of proposed parking spaces.

Programs and Computer Skills

Drafting Programs – Extensive knowledge of AutoCAD 2002 through AutoCAD 2018

Other Programs – Extensive use in Microsoft Word, Excel, Outlook & PowerPoint. Proficient in Microsoft Access.

ACTING DIRECTOR

Mark Rohmeyer, P.E. P.P., C.M.E.

Mr. Rohmeyer has over (13) years of experience in the field of Engineering. He earned his Bachelor of Science degree in Civil Engineering from Rutgers University in 2012. He is a Licensed Professional Engineer and Professional Planner in the State of New Jersey as well as a Certified Municipal Engineer. He is a member of the New Jersey Society of Professional Engineers and is an active volunteer for the annual "Engineering Career Day" which hosts 500+ high school students to various Engineering disciplines.

Mr. Rohmeyer began his career in 2012 at the Ocean County Engineer's Office before becoming a Municipal Engineering Consultant. His time working for the public sector and private industry has resulted in a wealth of experience and understanding of key engineering elements necessary to guarantee the successful completion of projects for our clients. Mr. Rohmeyer has gained experience in the design, funding, permitting, and construction management of many multi-disciplined capital projects. These projects include parks and recreation facilities, roadways, bikeways, water and sanitary sewer systems, stormwater management, marine construction, and site plan and subdivision preparation. Mr. Rohmeyer recognizes the importance of developing a unique, strategic approach to each project based on a client's needs. Mr. Rohmeyer provides professional engineering services to various Land Use Boards throughout the State which include site plans and subdivision review, developing ordinances and progressing master plans.

Mark and his wife Caycee reside in Toms River, NJ with their daughter, Remington, and son, Maverick.

 ACTING DIRECTOR

Brian Quinn, P.E.

Brian operates as a Director of Municipal Design and Construction for the firm and is a leader within the Municipal Engineering Division. He is responsible for municipal services such as capital improvement projects (Design, roadway, stormwater, utilities, parks, etc.), land use matters & planning, DOT grant applications & management and construction management. He is always available to communicate with his municipal clients.

Brian attended Manhattan College School of Engineering (NY) where he graduated with a Bachelor of Science in Civil Engineering with a focus in Structural Engineering and continues to study in their master's degree in Civil Engineering Program.

Brian is also an active fire fighter with the Lavallette Fire Department.

Manhattan College, Riverdale, NY

Employment History (10+ Years Experience)

January 2016-2019	Najarian Associates	Project Engineer
January 2019-April 2023	T & M Associates	Senior Staff Designer
May 2023-present	Morgan Municipal	Director of Municipal Design and Construction

Professional Licenses & Certifications:

Licensed Professional Engineer, New Jersey No.24GE06297300

Areas of Expertise:

Civil Engineering	Construction Management	Roadways
Site Design	ADA Compliance	Drainage
Stormwater Management	Sanitary Sewer	NJDOT Grants

Experience Summary

Mr. Quinn has an extensive background in municipal engineering with particular proficiency in AutoCAD, Storm-CAD, HEC-RAS, and EPA SWMM. He has experience in managing municipal civil engineering projects from proposals to construction administration. He has produced stormwater management analysis models, reports, and solutions for numerous municipalities. He has applied for, designed and managed many DOT municipal aid grant projects.

Relevant Project Experience

Heritage, Hillside, Marlin, Orchard, Prospect, Rambler, Stonehenge, Warren, Bridgewater Township, NJ

Engineer responsible for the implementation of design and construction of local roadway and infrastructure reconstruction. Improvements include pavement reconstruction, new curb and sidewalks, and storm sewer infrastructure. Responsibilities included roadway, sanitary and storm sewer design, QA/QC review, construction document preparation, construction administration and inspection.

Branch Road, Edgewood Drive, Bridgewater Township, NJ

Engineer responsible for the implementation of design and construction of local roadway and infrastructure reconstruction. Improvements include pavement reconstruction, new curb and sidewalks, and storm sewer infrastructure. Responsibilities included roadway, sanitary and storm sewer design, QA/QC review, construction document preparation, construction administration and inspection.

2023 Roadway Improvement Program – Spruce Circle North, Barnegat Township, NJ

Designer responsible for the implementation of design and construction of a local roadway and infrastructure reconstruction. Improvements include pavement reconstruction, new curb and sidewalks, and storm sewer infrastructure. Responsibilities included roadway, storm sewer design, QA/QC review, construction document preparation, construction administration and inspection. In addition to design and construction, responsible for the initial NJDOT grant application submittal and coordination of funding.

Brian Quinn

Relevant Project Experience

2022 Roadway Improvement Program – Spruce Circle South, Barnegat Township, NJ

Designer responsible for the implementation of design and construction of a local roadway and infrastructure reconstruction. Improvements include pavement reconstruction, new curb and sidewalks, and storm sewer infrastructure. Responsibilities included roadway, storm sewer design, QA/QC review, construction document preparation, construction administration and inspection. In addition to design and construction, responsible for the initial NJDOT grant application submittal and coordination of funding.

2023 Roadway Improvement Program – Scarborough Place, Saint David Drive and Abaco Street, Berkeley Township, NJ

Designer responsible for the implementation of design and construction of a local roadway and infrastructure reconstruction. Improvements include pavement reconstruction, new curb and sidewalks, and storm sewer infrastructure. Responsibilities included roadway, storm sewer design, QA/QC review, construction document preparation, construction administration and inspection.

2022 Roadway Improvement Program – Elsinore Street, La Tourette Court, Encinitas Drive and Rodhos Street, Berkeley Township, NJ

Designer responsible for the implementation of design and construction of a local roadway and infrastructure reconstruction. Improvements include pavement reconstruction, new curb and sidewalks, and storm sewer infrastructure. Responsibilities included roadway, storm sewer design, QA/QC review, construction document preparation, construction administration and inspection.

2023 Roadway Improvement Program – Colt Place, Manchester Township, NJ

Designer responsible for the implementation of design and construction of a local roadway and infrastructure reconstruction. Improvements include pavement reconstruction, new curb and sidewalks, and storm sewer infrastructure. Responsibilities included roadway, storm sewer design, QA/QC review, construction document preparation, In addition to design and construction, responsible for the initial NJDOT grant application submittal and coordination of funding.

2023 Consulting, Township Engineers Office, Manchester Township, NJ

Engineer responsible for road opening permits, plot plan reviews, top of block reviews and general resident concerns. Provide engineering inspection services for development projects within the Municipality.

2018-2019 Consulting, Township Engineers Office, Matawan Township, NJ

Engineer responsible for Road Opening permits, plot plan reviews, Top of block reviews and general resident concerns. Provide engineering inspection services for development projects within the Municipality.

2018-2022 Consulting, Township Engineers Office, Middletown Township, NJ

Engineer responsible for Road Opening permits, plot plan reviews, Top of block reviews and general resident concerns. Provide engineering inspection services for development projects within the Municipality.

2020 Roadway Improvement Program – Bond Street Improvements, City of Asbury Park, NJ

Designer responsible for the implementation of design and construction of approximately one-third mile of local roadway and infrastructure reconstruction. Improvements include full removal and replacement of the aged sanitary sewer system, pavement reconstruction, new curb and sidewalks, and storm sewer infrastructure. Responsibilities included roadway, sanitary and storm sewer design, QA/QC review, construction document preparation, construction administration and inspection. In addition to design and construction, responsible for the initial NJDOT grant application submittal and coordination of funding.

2019 Roadway Improvement Program – Memorial Drive Improvements, City of Asbury Park, NJ

Designer responsible for the implementation of design and construction of approximately one-half mile of local roadway and infrastructure reconstruction. Improvements include full removal and replacement of the aged sanitary sewer system, pavement reconstruction, new curb and sidewalks, and storm sewer infrastructure. Responsibilities included roadway, sanitary and storm sewer design, QA/QC review, construction document preparation, construction administration and inspection. In addition to design and construction, responsible for the initial NJDOT grant application submittal and coordination of funding.

Stockport Avenue, Yucatan Way & Maison Way Roadway Improvements, Berkeley Township, NJ

Project Engineer for the design of improvements to various roadways. Responsibilities for the project included creating the basemap using aerials, calculating drainage values, review and interpretation of field investigations and tests, and design a pavement cross section following NJDOT design criteria. Also responsible for the preparation of design drawings.

Camerose Street, Cameno Real Court & Buena Vista Court, Roadway Improvements, Berkeley Township, NJ

Project Engineer for the design of improvements to various roadways. Responsibilities for the project included creating the basemap using aerials, calculating drainage values, review and interpretation of field investigations and tests, and design a pavement cross section following NJDOT design criteria. Also responsible for the preparation of design drawings.

Traffic Signal Analysis, Woodbridge, NJ

Project Engineer for the project to analyze fifteen township owned traffic signals, their intersections, and their need for replacement.

Dune Walkover Design, Curtin Point, NJ

Project engineer for the construction documents and permitting for the construction of a dune walk in Curtin Point, NJ. Obtained a survey of the project and reviewed township setback code. Designed walkover design based on Army Corps of Engineers plans and a walkover design structure guide. Responsible for the preparation of design drawings.

Relevant Project Experience

Dune Walkover Design, Mantoloking Shores, NJ

Project Engineer for the construction documents and permitting for the construction of a dune walk. Obtained a survey of the project and reviewed township setback code. Designed walkover design based on Army Corps of Engineers plans and a walkover design structure guide. Responsible for the preparation of design drawings.

Monmouth County Courthouse Improvements, Monmouth County, NJ

Project Engineer for assessing site compliance with ADA standards and lighting standards. Responsible for reviewing the survey, checking the site for existing ADA compliance, and existing lighting on the site. Responsible for preparation of the final report outlining findings.

Spring Lake Park and Thompson Park Improvements, Middlesex County, NJ

Project Engineer for the replacement of tennis courts, basketball courts, and baseball fields at two parks in Middlesex County as well as providing ADA compliant access to all park areas and meeting NJDEP drainage requirements. Responsible for reviewing survey of the site, determining what level of asphalt repair was needed, and evaluating existing drainage systems to ensure they were sufficient to convey the additional flow from the courts. Coordinated correspondence between internal project team, client, and analytical laboratories. Responsible for preparation of project design drawings.

Heron Lane Drainage Improvements and Lagoon Streets Professional Opinion, Ocean Beach, NJ

Project Engineer for the complete pavement design of Heron Lane, a previously dense graded aggregate street. Also responsible for producing a professional opinion letter in reference to work completed on four side roads. Responsible for evaluating site survey, determining risk of coastal flooding, designing a grading plan that provided positive drainage to existing catch basins, documenting progress of construction on the roads, preparing a report of the work done, and providing an engineer's estimate for the improvements.

Franklin Avenue, Gray Drive, Worth Drive & Perishing Avenue Roadway Improvements, South Plainfield, NJ

Project Engineer for the design of improvements to various roadways in South Plainfield. Responsibilities for the project included creating the basemap using aerials, calculating drainage values, review and interpretation of field investigations and tests, and design a pavement cross section following NJDOT design criteria. Also responsible for the preparation of design drawings.

Girbaldi Avenue Roadway Improvements, South Plainfield, NJ

Project Engineer for the design of improvements to various roadways in South Plainfield. Responsibilities for the project included creating the basemap using aerials, calculating drainage values, review and interpretation of field investigations and tests, and design a pavement cross section following NJDOT design criteria. Also responsible for the preparation of design drawings.

Shoreland Terrace Design Drainage Analysis, Middletown, NJ

Project Engineer for the analysis of a drainage swale. Responsible for field review of the system, mapping of the existing system, and upgrade of the system to properly handle inflow.

Leonard Avenue Design Drainage Analysis, Middletown, NJ

Project Engineer for the analysis of a drainage swale. Responsible for field review of the system, mapping of the existing system, and upgrade of the system to properly handle inflow.

Town Hall Porous Pavement, East of Hudson Watershed Corporation, Somers, NY

Project Engineer for the design of the porous pavement stormwater quality practice. Performed construction management for the design of stormwater retrofits. Objective was to reduce phosphorus effluent concentration in stormwater runoff. Responsibilities included assessment of feasibility, supervision and review of deep hole test pit excavations and percolation testing, design of porous pavement parking lot, preparation of bid documents, and assistance with construction administration.

Eastern Way Stormwater Improvements, East of Hudson Watershed Corporation, Somers, NY

Project Engineer for the design of a stormwater collection system and treatment practice. Objective was to reduce phosphorus effluent concentration in stormwater runoff. Responsibilities included assessment of feasibility, supervision and review of deep hole test pit excavations and percolation testing, design of porous pavement parking lot, preparation of bid documents and assistance with construction administration.

Somers Highway Garage Stormwater Retrofits, East of Hudson Watershed Corporation, Somers, NY

Served as project engineer for the design of several stormwater quality retrofit practices at the Town Highway Garage.

Performed design consulting services as well as construction management services for the duration of the project. Assessed feasibility for each practice area, supervision and review of field investigation activities and data, design of all stormwater retrofits, preparation of bid documents, and construction administration.

Holbrook Pump Station Design, Briarcliff Manor, NY

Design engineer for the design of all site-civil elements of the proposed pump station site plan. Included the design of the proposed retaining wall system, and design of the proposed service parking area and shoulder transitions to existing roadway. Also designed site stormwater controls and developed project erosion and sediment control plan.

Horace Greeley High School Stormwater Retrofits, East of Hudson Watershed Corporation, Chappaqua, NY

Served as Project Engineer for the design of several stormwater quality retrofit practices at the Horace Greeley High School. Objective was to reduce phosphorus effluent concentration in stormwater runoff. Performed design consulting services as well as construction management services for the duration of the project. Assessed feasibility for each practice area, supervision and review of field investigation activities and data, design of all stormwater retrofits, preparation of bid documents, and construction administration.

Camp Smith Interior Roadway Improvements, Cortland Manor, NY

Served as Project Engineer for roadway improvements at the Camp Smith National Guard military training facility, responsible for the planning and design. Reviewed site characteristics, including setbacks and wetlands, arranged deep hole test pit excavations, soil borings, and pavement core field investigations. Responsible for review and interpretation of field investigation and sieve analysis data. Also responsible for roadway drainage improvements and assessed proposed drainage watershed within roadways and completed runoff calculations.

Reis Park Stormwater Retrofits, East of Hudson Watershed Corporation, Somers, NY

Project Engineer for the design of several stormwater quality retrofit practices at Reis Park. Performed design consulting services as well as construction management services for the duration of the project. Assessed feasibility for each practice area, supervision and review of field investigation activities and data, design of all stormwater retrofits, preparation of bid documents, and construction administration.

Creedmoor Psychiatric Facility Roadway Improvements, Queens Village, NY

Project Engineer for the analysis and improvements to the interior roadways, update of sidewalks to meet ADA standards, and site alterations. Arranged deep soil boring and pavement core field investigations, reviewed and interpreted field investigation and sieve analysis data, and grading of the site. Responsible for preparation of design drawings.

Lincoln Lane Bridge, Township of Harrison, NY

Project Engineer for the design of structural and drainage repairs to the concrete arch Lincoln Lane Bridge. Objective was to repair the deteriorated bridge, providing easier access to homeowners in the area. Responsible for reviewing site survey, assessing existing drainage watershed within the roadways, completing drainage calculations, and designing stormwater conveyance system based on this data. Developed construction erosion and sediment control plan, and prepared project design drawings.

ACTING DIRECTOR

Zachary Anderson, P.E.

Mr. Anderson has over four years of experience in the field of engineering. He earned his Bachelor of Science degree in Civil Engineering from King's College in Wilkes-Barre, PA, in 2021, and is a Licensed Professional Engineer in the State of New Jersey

Zach began his career in 2021 as a Municipal Engineering Consultant, where he gained expertise in the design, funding, permitting, and construction management of multidisciplinary capital projects. His experience includes work on parks and recreation facilities, roadways, bikeways, water and sanitary sewer systems, stormwater management, and marine construction. He is skilled at coordinating with municipal officials, contractors, and regulatory agencies to keep projects on schedule and within budget. Zach is dedicated to delivering cost-effective, sustainable solutions that meet client objectives while serving the public's best interest.

Zach is also an FAA-certified drone pilot, enabling him to perform inspections and capture aerial imagery for documentation and analysis.

Zach resides in Point Pleasant Beach and enjoys fishing, kayaking, and golfing during his free time.

Mr. Anderson has over 4 years of experience in Municipal Engineering and oversees design and construction of Municipal projects. He annually applies for and administers grants from the NJDOT Local Aid, Community Development Block Grant Program, and other State and Federally funded grants. Regular tasks include in the investigation, testing, planning, estimating, designing, bidding, construction, and maintenance of private sites and public infrastructure systems.

Relevant Roles:

Assisting the Township Engineer, Township of Manchester, Ocean County, NJ. Consulting Engineer for the Municipality, duties include processing and oversight of ongoing roadway and stormwater projects and coordination of engineering efforts such as road opening permits, grading plan review, final engineering review, etc. (2025)

Assisting the Borough Engineer, Borough of Pine Beach, Ocean County, NJ. Consulting Engineer for the Borough of Pine Beach, duties include oversight of ongoing roadway and stormwater projects, NJDEP stormwater permitting, coordinating residential inquiries, inter-department coordination of engineering efforts. (2023-2025)

Relevant Project Experience:

Municipal Inspection of Private Developments (Commercial & Residential), Various Municipalities, Ocean County, NJ.

Project Manager – Consulting Engineer

Consulting Engineer for Barnegat, Jackson, Point Pleasant, Point Pleasant Beach, Pine Beach, Brick, Manchester Township, etc. Duties include coordinating with municipalities and project owner's and contractors on construction inspection, formulating ongoing punch list for repair work, performance and maintenance bond coordination. (2022-present)

PINE BEACH BOROUGH, OCEAN COUNTY, NJ

FY2025 NJDOT Municipal Aid Improvements to Pennsylvania Avenue and Grant Avenue

Project Manager

Design and preparation of construction plans and specifications/contract documents to conform with NJDOT specifications. Design work included improvements of roadway grading, stormwater drainage, handicap accessibility at sidewalks and curb ramps, surface restoration, etc. Project bidding as well as construction administration and inspection oversight performed during the construction phase.

Zachary Anderson, P.E.

137 Central Avenue, Island Heights,

NJ Phone: (732) 270-9690

E-mail: zachary@morganmunicipal.com

FY2024 NJDOT Municipal Aid Improvements to Lincoln Avenue and Radnor Avenue

Project Manager

Design and preparation of construction plans and specifications/contract documents to conform with NJDOT specifications. Design work included improvements of roadway grading, stormwater drainage, handicap accessibility at sidewalks and curb ramps, surface restoration, etc. Project bidding as well as construction administration and inspection oversight performed during the construction phase.

FY2023 NJDOT Municipal Aid Improvements to Municipal Building

Project Designer

Design and preparation of construction plans and specifications/contract documents to conform with NJDOT specifications. Design work included improvements of roadway and parking lot grading, stormwater drainage, handicap accessibility, surface restoration, etc.

FY2023 Local Recreation Improvements Grant – Pavilion at Vista Park

Project Designer

Design and preparation of construction plans and specifications/contract documents to conform with regulatory specifications. Design work included improvements to concrete walkways, stormwater drainage, handicap accessibility, surface restoration, etc.

NJDEP Tier A MS4 Mapping

Project Manger

Implementation of ArcGIS and Field maps to prepare digital maps of the Municipal Separate Storm Sewer System (MS4) and submission to NJDEP.

Relevant Project Experience

BRICK TOWNSHIP, OCEAN COUNTY, NJ

Roadway Improvements to Pinewood Drive – 2022

Project Manager – Consulting Engineer

Design and preparation of construction plans and specifications/contract documents to conform with local and state regulations. Design work included improvements of roadway grading, stormwater drainage, surface restoration, etc. Construction administration and inspection oversight were performed during the construction phase.

POINT PLEASANT BEACH BOROUGH, OCEAN COUNTY, NJ

Carter Avenue, South Baltimore Avenue, and New Jersey Avenue Improvements

Project Manager – Consulting Engineer

Design and preparation of construction plans and specifications/contract documents to conform with NJDOT specifications. Design work included improvements of roadway grading, stormwater drainage, handicap accessibility at sidewalks and curb ramps, surface restoration, etc. Project bidding as well as construction administration and inspection oversight performed during the construction phase.

Zachary Anderson, P.E.

2026 SCHEDULE OF BILLABLE HOURLY RATES

Morgan Municipal Services, LLC and Morgan Engineering & Surveying, LLC have a company policy to work alongside clients and share in the success from beginning to end. To that end, we want to be clear that clients should contact our staff with questions or problems, and that consulting fees will not be incurred for general consulting or guidance. Fees are only charged for completing specific tasks that are tied to a specific project or assignment. For capital projects, our office will provide a detailed written proposal which indicates the scope of services and are subject to negotiation and approval.

See Specific Instructions on page 2.

Name (as shown on your income tax return) Morgan Engineering LLC	
Business name/disregarded entity name, if different from above	
Check appropriate box for federal tax classification: <input type="checkbox"/> Individual/sole proprietor <input type="checkbox"/> C Corporation <input type="checkbox"/> S Corporation <input type="checkbox"/> Partnership <input type="checkbox"/> Trust/estate <input checked="" type="checkbox"/> Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=partnership) ▶ _____ <input type="checkbox"/> Other (see instructions) ▶ _____	
<input type="checkbox"/> Exempt payee	
Address (number, street, and apt. or suite no.) P. O. Box 5232	Requester's name and address (optional)
City, state, and ZIP code Toms River, NJ 08754	
List account number(s) here (optional)	

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on the "Name" line to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number	
[] [] [] - [] [] - [] [] [] []	
Employer identification number	
7 5 - 3 0 4 7 7 6 2	

Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
- I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 4.

Sign Here	Signature of U.S. person ▶	Date ▶ 10/11/23
------------------	----------------------------	-----------------

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

- Certify that the TIN you are giving is correct (or you are waiting for a number to be issued).
- Certify that you are not subject to backup withholding, or
- Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

Form **W-9**

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (Interest earned or paid)

- Form 1099-DIV (dividends, including those from stocks or mutual funds)
 - Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
 - Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
 - Form 1099-S (proceeds from real estate transactions)
 - Form 1099-K (merchant card and third party network transactions)
 - Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
 - Form 1099-C (canceled debt)
 - Form 1099-A (acquisition or abandonment of secured property)
- Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, later.
